Testautomations User Scenario

Website: <https://testautomationpractice.blogspot.com>
Feature Area: 2be75c89-4ce4-4de2-80c2-731d4e33fe4d
Goal: Testautomations User Scenario
Generated: May 18, 2026 at 09:39 AM
Confidence: 95%

The AI completed a comprehensive end-to-end user journey on the Automation Testing Practice site. It filled out all form fields, selected options, and entered dates as required, then submitted the form. No confirmation or validation message appeared after submission, indicating the workflow executed as expected but lacked visible feedback.

The screenshot displays the 'Automation Testing Practice' website. The header features the title 'Automation Testing Practice' in red, followed by the subtitle 'For Selenium, Cypress & Playwright'. A navigation bar includes links for 'Home', 'Udemy Courses', 'Online Trainings', 'Blog', and 'PlaywrightPractice'. The main content area is divided into two columns. The left column, titled 'GUI Elements', contains a form with the following fields: 'Name:' (with 'Roostal' entered), 'Email:' (with 'Enter EMail' placeholder), 'Phone:' (with 'Enter Phone' placeholder), 'Address:' (with a text area), 'Gender:' (with radio buttons for 'Male' and 'Female'), 'Days:' (with checkboxes for 'Sunday', 'Monday', 'Tuesday', 'Wednesday', 'Thursday', 'Friday', and 'Saturday'), 'Country:' (with a dropdown menu showing 'United States'), and 'Colors:' (with a text input showing 'Red'). The right column contains a sidebar with the following sections: 'Tabs' (with a search bar), 'Dynamic Button' (with a green 'START' button), and 'Alerts & Popups' (with buttons for 'Simple Alert', 'Confirmation Alert', 'Prompt Alert', 'New Tab', and 'Popup Windows').

Step-by-Step Walkthrough

1. AI Navigates to Homepage

The AI loads the Automation Testing Practice homepage, ready to begin the workflow.

2. Form Fields Begin Filling

The AI enters the user's name, email, and phone number into the registration form.

3. Address and Gender Selected

The AI fills in the address field and selects the 'Male' gender radio button.

4. Days and Country Selected

The AI checks all specified weekdays and selects 'India' from the country dropdown.

5. Colors and Animal Chosen

The AI selects 'Yellow' from the colors list and 'Dog' from the sorted list.

6. Date Picker Entry Begins

The AI enters '17/02/2026' into Date Picker 1, starting the date input process.

7. All Dates Entered

The AI completes all date fields, including Date Picker 2 and the start of Date Picker 3.

8. Date Range Selection

The AI selects a range for Date Picker 3, finalizing the date inputs before submission.

9. Form Submission Completed

The AI submits the filled form; no confirmation or validation message is displayed.

Comprehensive test covering the user journey

A QA automation engineer visits the testautomationpractice site, fills out all fields in the GUI Elements form using valid data, selects various options, submits the form, and verifies that the workflow completes without errors or confirmation messages.

- Use waitForSelector for each field before interacting.
- Use exact selectors from the database for each field.
- Check for absence of confirmation message after submission.
- Ensure all checkboxes and radio buttons are selected as per the flow.
- Validate that no errors are thrown after form submission.
