Workflow Exploration Report

Interact with PlaywrightPractice Locator Demo Elements (getByRole card only, partial coverage)

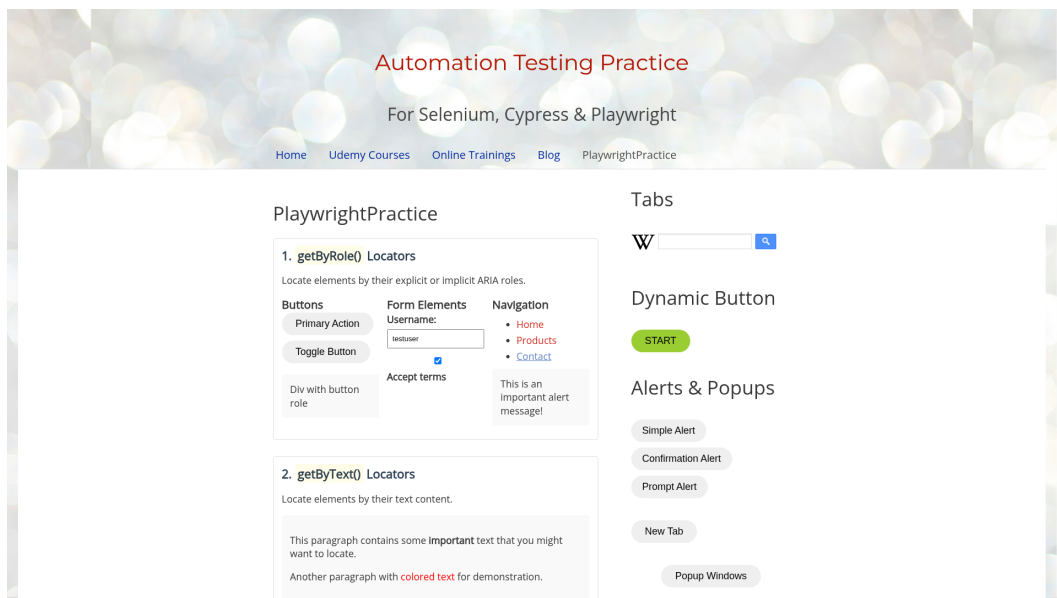

Website: <https://testautomationpractice.blogspot.com>

Feature Area: PlaywrightPractice Locator Demos

Goal: Interact with all available elements in the getByRole() Locators card: buttons, input, checkbox, and navigation links.

Generated: March 26, 2026 at 06:26 AM

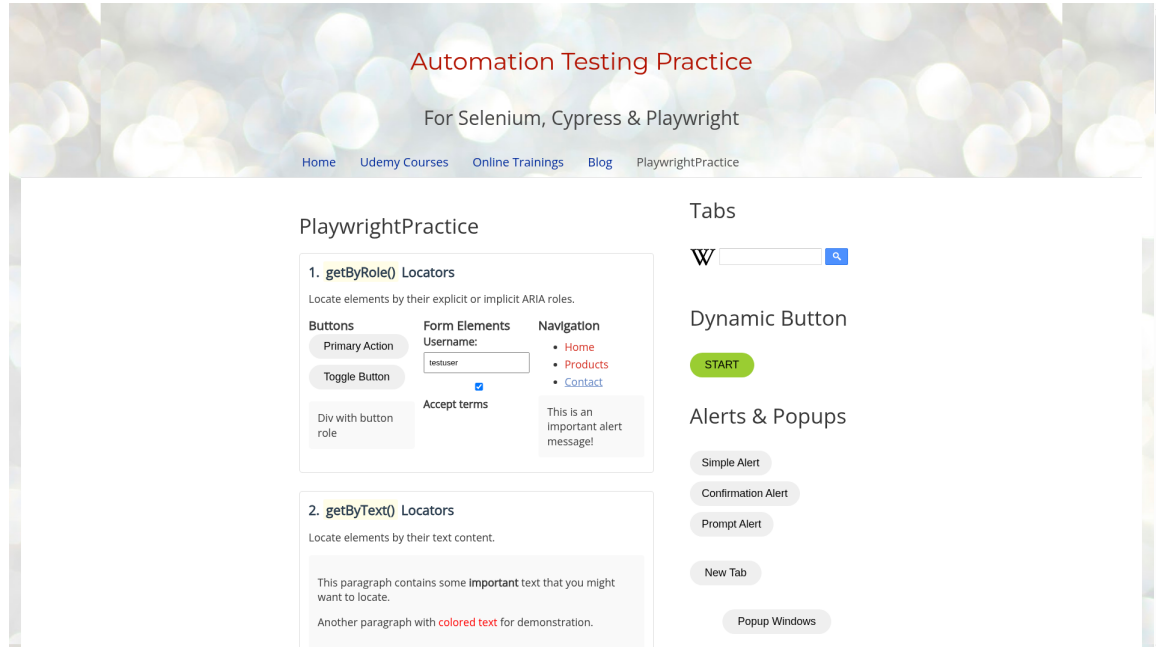

The AI interacted with all available elements in the 'getByRole() Locators' demo card, including buttons, an input field, a checkbox, and navigation links. The workflow demonstrates successful form interactions, but navigation link clicks did not result in visible UI changes.

Step-by-Step Walkthrough

1. Initial Demo Card State

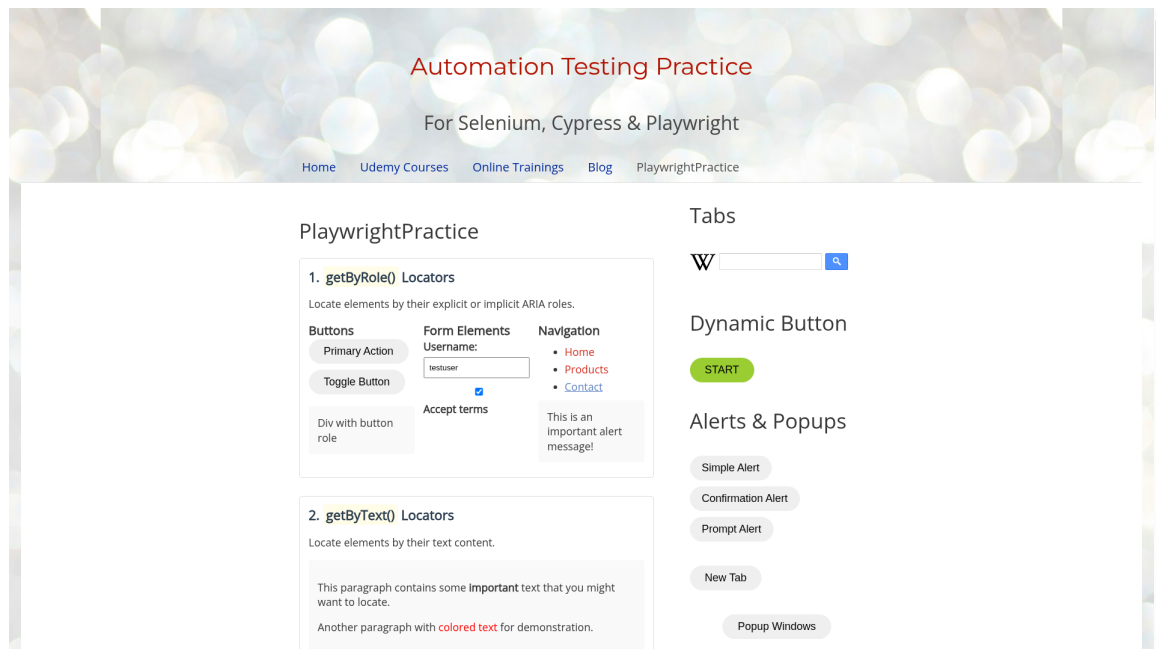

The AI loads the PlaywrightPractice page, displaying the 'getByRole() Locators' card with all interactive elements ready for testing.

<https://testautomationpractice.blogspot.com/p/playwrightpractice.html>

2. Form Filled and Checkbox Checked

The AI fills the 'Username' input with 'testuser' and checks the 'Accept terms' checkbox, showing successful interaction with form elements.
